SUMMARY

Instructional Designer with 15+ years designing eLearning, instructor-led, and blended learning solutions for large, diverse audiences in regulated corporate and healthcare-adjacent environments, including global field service engineers on medical imaging platforms. Builds SCORM/xAPI-compliant courses in Articulate Storyline and Rise, partners closely with subject matter experts to translate complex technical and compliance content into clear, task-based learning, and leads structured quality-assurance and audit-readiness processes aligned to ISO 9001 and regulatory standards. Applies adult learning principles, Universal Design for Learning (UDL), and the ADDIE, SAM, and ARCS frameworks, and uses learner analytics (Qualtrics) and completion metrics to continuously evaluate and improve learning effectiveness.

LEARNING EXPERIENCE / DESIGN EXPERIENCE

Philips Healthcare, North America

2022 – Present

Instructional Designer / Learning Content Developer

- Design and deliver 70+ multimedia-rich courses, including high-fidelity simulations and branching learning experiences, for global field and remote service engineers on medical imaging platforms, applying learning science and UDL principles to build the confidence and skill needed for safe, reliable performance in complex clinical environments.
- Build and maintain an AI-driven process that converts Word-based exam content into a Storyline-ready spreadsheet for direct import, reducing exam setup from 30 minutes or more to seconds while cutting manual errors; now adopted as a standard team workflow.
- Rapidly prototype and iterate non-linear branching scenarios in Articulate Storyline for installation, configuration, and troubleshooting workflows, mirroring the real decision points engineers face in the field.
- Collaborate with LMS and business teams to deploy SCORM/xAPI-compliant courses and validate performance data, using learner and program analytics to support compliance, readiness, and continuous improvement, and prepare to migrate the team's legacy Totara courses into the new Docebo LMS.
- Lead a structured, ISO 9001-aligned quality review process, coordinating stakeholder reviews, peer audits, and editorial checks, to keep learning content accurate, consistent, and aligned with regulatory and internal standards, sustaining 100% audit readiness.
- Partner with 20+ global clinical and technical subject matter experts to translate complex device specifications and imaging data into clear, task-based learning that helps engineers resolve issues quickly and minimize disruption to patient care.
- Gather learner course reviews and Qualtrics survey data to test and iterate on content, using direct feedback to continuously refine clarity, pacing, and real-world relevance.
- Develop and adapt courses for multilingual learners across regions, working closely with regional SMEs to ensure technical accuracy, clarity, and cultural relevance for a global audience.

Bryant University, Smithfield, RI

2020 – 2022

Instructional Designer

- Designed end-to-end digital learning architecture for professional certification programs (Six Sigma Green Belt, Project Management, HR Essentials) across the Executive Development Center, Center for Teaching Excellence, and Professional MBA.
- Directed full-cycle development of the IDEA Design Thinking program in Canvas LMS, building course structures and training frameworks that scaled to a cohort of 700+ learners annually.
- Managed course development projects in Smartsheet from kickoff through launch, scheduling regular stakeholder check-ins and tracking milestones to keep SME reviews, content builds, and deadlines on track.
- Partnered with 8+ subject matter experts to design assessment strategies grounded in Kirkpatrick's levels of evaluation and Universal Design for Learning (UDL), validating real-world mastery of workplace competencies.
- Applied learner analytics in Qualtrics and end-of-course learner reviews to track milestones and outcomes, using evidence and feedback to continuously refine instructional performance.

Bishop Feehan High School, Attleboro, MA / Franklin Public Schools, Franklin, MA 2016 – 2020

Digital Learning Coordinator (Trainer) / Faculty

- Designed and facilitated onboarding and technology training for 115+ staff and faculty, and led district-wide staff development programming (Naviance, Aspen, Plato) for 230 educators.
- Served as LMS/systems administrator (Follett Destiny, Turnitin, EdPuzzle, KOHA), managing platform configuration and end-user support.
- Facilitated adoption of ISTE standards across the curriculum and led 6 Professional Learning Communities and 5 teacher-mentor pairings annually.

ONLINE FACULTY / CAREER DEVELOPMENT

University of Rhode Island, Kingston, RI 2014 – 2016

Online Faculty (Lecturer), ITR 300/302/304

- Developed content outlines, storyboards, and scripts, and created graphics, animations, videos, and visual elements to enhance objectives-based curriculum and web instruction.
- Researched and recommended eLearning tools, templates, and platforms, and incorporated flipped and hybrid classroom techniques to promote deeper learning and engagement.
- Evaluated analytics to amend curriculum and fulfill requirements, milestones, and deliverables; advised students regarding internship standing, supervisor evaluations, and learning contracts.
- Managed online courses through Sakai (LMS), maintaining time on task and working independently to adhere to deadlines, milestones, and deliverables.

Earlier roles: Career Services and Employer Relations: STEM Advisor, Career Advisor, Internship Coordinator

- Built and delivered structured curriculum, including syllabi, learning objectives, and infographics and animated visual aids, to support career and self-assessment learning outcomes.
- Used pre/post survey data and gap analysis to evaluate program effectiveness and design new programming to meet emerging student needs.

EDUCATION

American College for Education, Indianapolis, IN 2016

Master of Education, Instructional Design and Technology

University of Rhode Island, Kingston, RI

Master of Science, Human Development (College Student Personnel)

Bachelor of Arts, English Studies

CERTIFICATIONS

Docebo University coursework (in progress): Docebo Ready! Onboarding, Essentials: User Experience	2026
Generative AI, Unity, Camtasia, Articulate Storyline, ASCD, Six Sigma Green Belt, Google/MS Trainer	2022 – 2025
International Society for Technology in Education (ISTE) in Education	2020
MA Dept. of Education / RI Dept. of Education, Instructional Technology, Library Media Specialist	2016

TECHNICAL SKILLS

AI & Emerging Technology: Generative AI (ChatGPT, Claude, Copilot, Perplexity), Unity, basic AR/VR development

Learning Experience Design & Authoring: Articulate 360 Suite (Storyline, Rise, Review), Adobe Captivate, Vyond, PowToon

Data, Evaluation & Project Management: Qualtrics analytics, Kirkpatrick evaluation model, MS Office 365, Google Workspace, Smartsheet, Agile/Scrum

Multimedia & Visual Design: Adobe Creative Suite, Camtasia, Snagit, Canva, AI voiceover & scripting

LMS & Systems Administration: Canvas, Sakai, Totara, Docebo, Drupal (CMS), Follett Destiny, Turnitin, EdPuzzle, KOHA, Azure, SCORM/xAPI validation
